

## MACHINE GUN PURGE KIT

Comes with its own ear plugs!

Want to make them really take notice? Install the new ZEX™ Machine Gun Purge Kit, and you'll really get their attention. We even include a set of ear plugs to ensure your personal noise protection. The Machine Gun Purge Kit pulses any purge kit on the market, regardless of brand. Release nitrous with a "machine gun" blast of noise and color to let them know you're nitrous equipped.

The Machine Gun Purge Kit includes the Machine Gun Module, the award-winning Purge Cloud LED Light and all electrical connectors and wire. Everything you need for a complete and professional, 30 minute installation is included.

- Fits any manufacturer's purge kit
- Pulses the purge kit like a machine gun, heads will turn
- Includes revolutionary Purge Cloud LED light for a cool, strobe light effect
- Red, green, and blue colors available

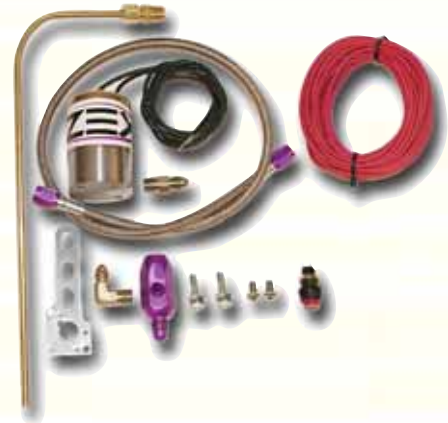

Part #82370R (red LED)  
 Part #82370G (green LED)  
 Part #82370B (blue LED)

## NITROUS PURGE KIT

Part #82010

- Purging your nitrous kit before a race clears the lines of unwanted vapor and ensures pure liquid nitrous as soon as the kit activates, giving you the jump on your competition
- The ZEX™ Nitrous Purge Kit uses the largest solenoid and delivery lines in the industry
- Creates the "snow machine" effect every racer wants

## LED PURGE KIT

A complete purge kit that delivers a vibrant and colorful 15-foot nitrous cloud!

The ZEX™ LED Purge Kit is compatible with any manufacturer's nitrous system. It includes a complete nitrous purge kit, plus the addition of the award winning ZEX™ Purge Cloud LED Kit. The ZEX™ LED Purge Kit uses a high intensity LED light to illuminate the nitrous purge cloud. This LED is available in red, green or blue color and is powerful enough to illuminate a 15-foot cloud of nitrous, giving you a show stopping purge display.

- Fits any manufacturer's nitrous system
- Ensures instant nitrous power off the line by clearing the delivery lines of unwanted vapor
- Illuminates the purge-cloud to let the whole world know that you are nitrous equipped
- Uses a special, high intensity LED to maximize the visual impact at night
