

REMOTE BOTTLE VALVE OPENER

Part #82009

- Allows you to open the valve from the driver's seat at a moment's notice
- Manufactured from anodized billet aluminum
- Modular motor assembly provides years of trouble free use
- The ZEX™ design ensures that nitrous flow is not affected by its use

SAFETY BLOW DOWN KITS

Part #82099 Universal kit, fits all valves

Part #82110 For valves with internally threaded safety port

Part #82111 For valves with externally threaded safety port

The ZEX™ Safety Blow Down Kit ensures maximum safety for your nitrous powered hot rod. If your bottle is ever over-filled or overheated and the pressure safety disk bursts, the dangerous over-pressure will safely vent to the outside of the vehicle. All racetracks require these blow down kits, and they are a must for the serious competitor. The ZEX™ Safety Blow Down Kit is a complete kit that makes installing this important safety item a simple task.

RACER'S TUNING KIT

Part #82001

- Kit includes all the accessories needed to optimize the performance of your nitrous system
- Includes a purge kit, bottle pressure gauge, bottle heater, and a safety blow down kit
- As an added bonus, there is a 5% discount on the accessories, plus the kit includes a FREE T-shirt offer

NITROUS FILL STATION

Part #82121

The ZEX™ Nitrous Refill Station allows you to accurately and safely fill all kinds of nitrous bottles. It has an incredibly quiet and efficient pump and includes all the necessary high-pressure lines, fittings, adapters, and filters to properly set-up a refill station. The ZEX™ Nitrous Refill Station ensures that the fun won't stop when the bottle is empty.

Some parts are not legal for sale or use in California or on pollution controlled vehicles
