

NITROUS BOTTLES

NITROUS BOTTLES

Part #82000 (Purple Bottle)

Part #82000P (Polished Bottle)

Part #82000C (Carbon Composite Bottle)

- Both the purple and polished bottles have an incredible, show quality shine
- "Standard" nitrous bottles have a capacity of 10 lbs. of nitrous
- Carbon composite nitrous bottle has a capacity of 12.5 lbs. of nitrous
- Carbon composite nitrous bottle includes special bottle brackets
- All bottles come with ZEX™'s high-performance bottle valve

BLACK VELVET BOTTLE BAG

Part #82000B

Tired of the local speed shop scratching your nitrous bottle when it gets filled? ZEX™ has the perfect solution. The ZEX™ Black Velvet Bottle Bag is a form fitting, embroidered black velvet bag that slips over any 10 lb. nitrous bottle. The bag is thin enough to be kept on the bottle, even while the bottle is installed in the brackets. It makes the perfect finishing touch to your nitrous system installation.

NITROUS BOTTLE BRACKET KIT

Part #82013

- High quality, stainless steel bottle brackets fit all 10 lb. and 15 lb. nitrous bottles. Offers a perfect fit with a show quality finish.
- Includes rubber bracket covers. A no-slip design that does not damage the bottle's finish. The same brackets used in our nitrous kits for proven durability and safety.

MAXIMIZER KIT

Part #82100 (Purple Bottle)

Part #82100P (Polished Bottle)

No more running out of nitrous on a Friday night of racing. The ZEX™ Maximizer Kit doubles your system's capacity by adding an extra nitrous bottle to your vehicle. This extra capacity not only ensures more fun, but helps to maintain bottle pressure for maximum horsepower. The kit includes a 10 lb. ZEX™ nitrous bottle, padded bottle brackets, adapter fittings, and high-pressure braided lines. Step up to the plate with the ZEX™ Maximizer Kit and never run out of the horsepower juice when you need it the most.
