ZEX™ Blackout Nitrous Systems™

New all-black powder-coated bottle, plate, fittings and carbon fiber-look hoses deliver unprecedented new look and power potential

And now for something completely different from the engineers at ZEX™ – new Blackout Nitrous Kits. No longer are you forced to go with the standard purple components to achieve the powerful nitrous performance generated by ZEX™ nitrous systems. The new ZEX™ Blackout Nitrous Systems™ deliver all the power and ease-of-use ZEX™ fans have come to know in the most technically advanced performance nitrous you can buy, all wrapped in an exciting new black finish.

Available in a wide assortment of styles for carbureted and fuel injected applications, the ZEX™ Blackout Nitrous Systems™ incorporate a sophisticated electronic throttle-by-wire compatible TPS switch for use on late model vehicles such as the '05-'09 Mustang. The patented ZEX™ Active Fuel Control™ adjusts the system's fuel enrichment according to bottle pressure so you never run too rich or too lean. With the Blackout Nitrous System™ you can tune to the power level you desire. Each kit is complete and ready to install, including tuning jets as well as fuel tap fittings, solenoids, filter and all necessary activation electronics.

ZEX™ currently offers a Blackout version of their following systems: Square Flange and Dominator Perimeter Plate and Race Perimeter Plate (10 lb. bottle size only), GM LSX, Ford 2005-Current Mustang GT and 4-6 Cylinder EFI Wet Nitrous Kits.

For more information about the ZEX™ Blackout Nitrous Systems™ or any other ZEX™ product, call us at 1-888-817-1008, or visit us online at www.zex.com.

Quick Summary

Product: ZEX™ Blackout Nitrous Systems™

Part Number: Application Specific (See 2009 COMP Performance Group™ New Products Brochure)

Features & Benefits:

- Black powder-coated bottle, plates and fittings along with carbon fiber-look hoses
- Features Active Fuel Control™ and throttle-by-wire compatible electronic TPS switch
- Carbureted and EFI kits available
- Kits include tuning jets, fuel tap fittings, solenoids, filters and all necessary hardware
- Full adjustability to power level you desire

*Kit contents vary by application;
